EXPERIENCE

Salesforce
Senior UX Designer
Aug 2021 – Present

Lead design strategy and end-to-end design for SaaS seller platforms across opportunity management, account strategy and platform renewal. Partner with product leaders, engineers and senior stakeholders. Prioritising roadmaps by impact and presenting decisions backed by research.

- Owned the design system and two sub-products on a multi-year SaaS platform used by 35,000+ people globally — driving interface consistency across three products, and running the user research, usability testing and A/B testing that shaped key features.
- Sole designer on a 0→1 vision for the quote-to-cash proposal journey, alongside a Principal Experience Architect and two Directors — owned the design end to end: business framing, co-facilitated workshops, journey mapping, wireframes, and the agentic prototype used to validate the concept before build.
- Designed an AI-powered recommendation engine surfacing relevant content in context at each stage of the sales cycle — flow logic through to high-fidelity UI in Figma and AI Studio.

Salesforce
UX Designer
Dec 2018 – Aug 2021

Designed custom software demo prototypes with CX engineers and solution strategists, translating complex enterprise workflows into usable interfaces. Delivered wireframes, interactive prototypes and validated UI used by pre-sales teams in customer engagements.

Early-stage startups
Visual & Brand Designer
2014 – 2018 · Lyon & Paris

Owned brand identity, UI and motion design across several early-stage products, working directly with founders from concept to launch. Delivered visual systems, marketing sites and product interfaces end to end.

EDUCATION

Université Lumière Lyon 2
ICOM — Art Direction
2014 – 2015

Master's Degree (M2), Art Direction. Brand and visual foundation that still shapes how I craft product interfaces.
